

AgapeCoin (\$AGPE)
Crypto with Heart

Official Whitepaper

Introduction

AgapeCoin (\$AGPE) is more than a meme coin. It is a movement grounded in the principle of agape — the highest form of love, selfless and unconditional. While many tokens chase quick profits and hype, AgapeCoin seeks to transform the crypto culture by embedding generosity, transparency, and community-driven impact at its core. Our mission is to create a digital currency that not only thrives in markets but also blesses communities worldwide.

Tokenomics

- Total Supply: 777,777,777,777 AGPE (777 billion, fixed cap).
- Founder's Allocation: 77,000,000 AGPE (~0.0099% of supply).
- Transaction Fee (2%):
 - 10% of fees → Community Chest Wallet.
 - 90% of fees → Founder/Dev Wallet.
- Community Chest Purpose: Charity donations, giveaways, contests, and community growth.
- Remaining Supply Distribution:
 - 50% Liquidity Pool (≈388.8B AGPE).
 - 20% Community Rewards & Airdrops (≈155.5B AGPE).
 - 15% Ecosystem Development (≈116.6B AGPE).
 - 10% Partnerships & Growth Fund (≈77.7B AGPE).

Utility & Ecosystem

AgapeCoin is designed with real use cases beyond simple trading speculation:

- **NFT Collections** – 'Acts of Love' themed NFTs to reward community creativity.
- **Staking Pools** – Holders may stake AGPE to earn passive rewards while supporting liquidity.
- **Charitable Partnerships** – A percentage of transactions flow into charitable donations.
- **Meme Economy** – Fueling viral campaigns with positivity and humor to drive adoption.

Roadmap

- **Phase 1 (Q1):** Token launch, liquidity pool creation, and community building.
- **Phase 2 (Q2):** Airdrops, meme contests, and social media expansion.
- **Phase 3 (Q3):** Launch of 'Acts of Love' NFT collection, exchange listing efforts.
- **Phase 4 (Q4):** Explore DAO-based governance models, expand charitable partnerships, and solidify AgapeCoin as the leading positive-force meme coin.

Community & Governance

The AgapeFam is the lifeblood of this project. Together we create memes, fund generosity, and grow adoption by building a culture of love in crypto. While the founder holds direct control of the development wallet and Community Chest at launch, all wallet addresses will be made public to ensure transparency. Future governance options, such as multi-sig wallets or DAO models, may be explored as the project scales.

Conclusion

AgapeCoin (\$AGPE) is crypto with a higher purpose. It blends scarcity (777 billion capped supply), symbolic meaning (77 million founder allocation), and generosity (Community Chest) to forge a unique identity in the blockchain space. We believe AgapeCoin will not only rise in market value but also in eternal value — as a tool for spreading love, lifting communities, and proving that crypto can have a heart.
